

Sugarblade & Starfang

The Dark Magic
Candy Golem

ISSUE #1

Candy Island
promised peace.

Veyro came
to forget invasions.

Ronin came
to forget wars.

Neither had asked
for a neighbor with
a legend.

Retirement is hard to hide.

Malzareth followed old psychic scars.

Saccharon followed ruined sugar spells.

Revenge made them polite.

Polite did not last.

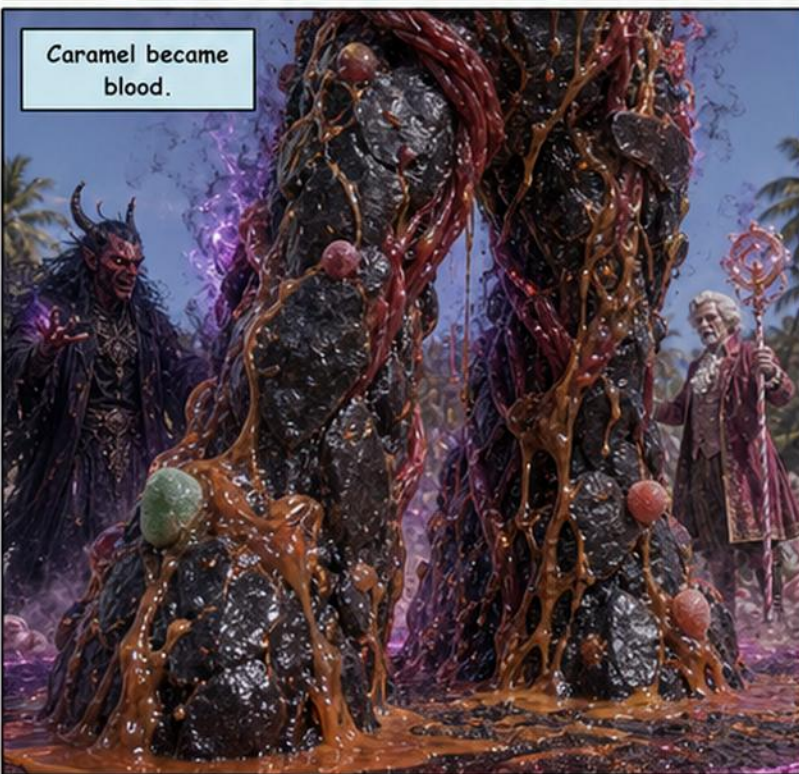

Cursed sugar took shape.

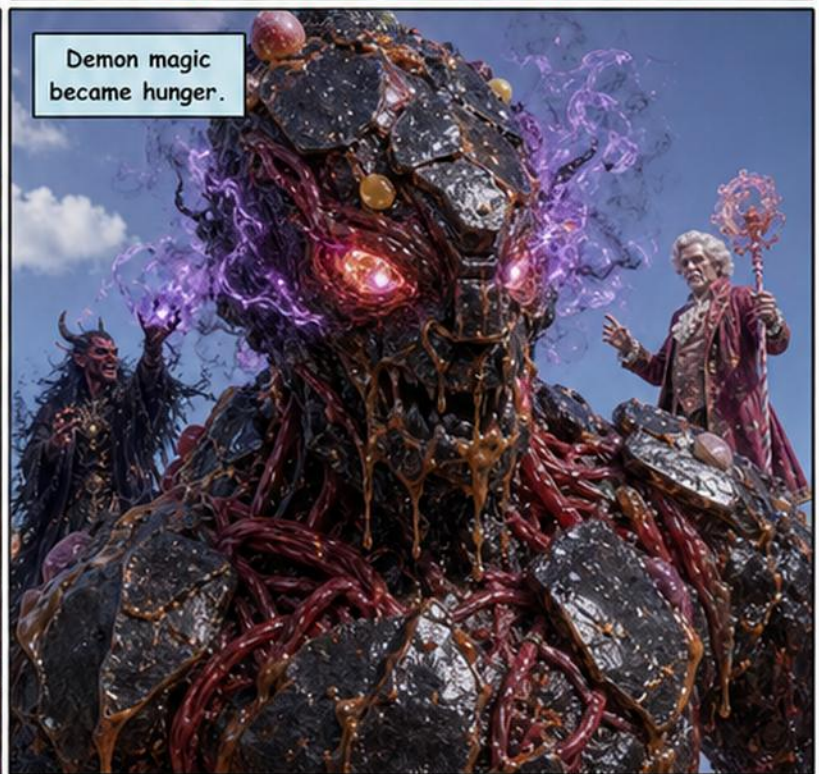

Licorice became tendons.

Caramel became blood.

Demon magic became hunger.

Candy Island shook.

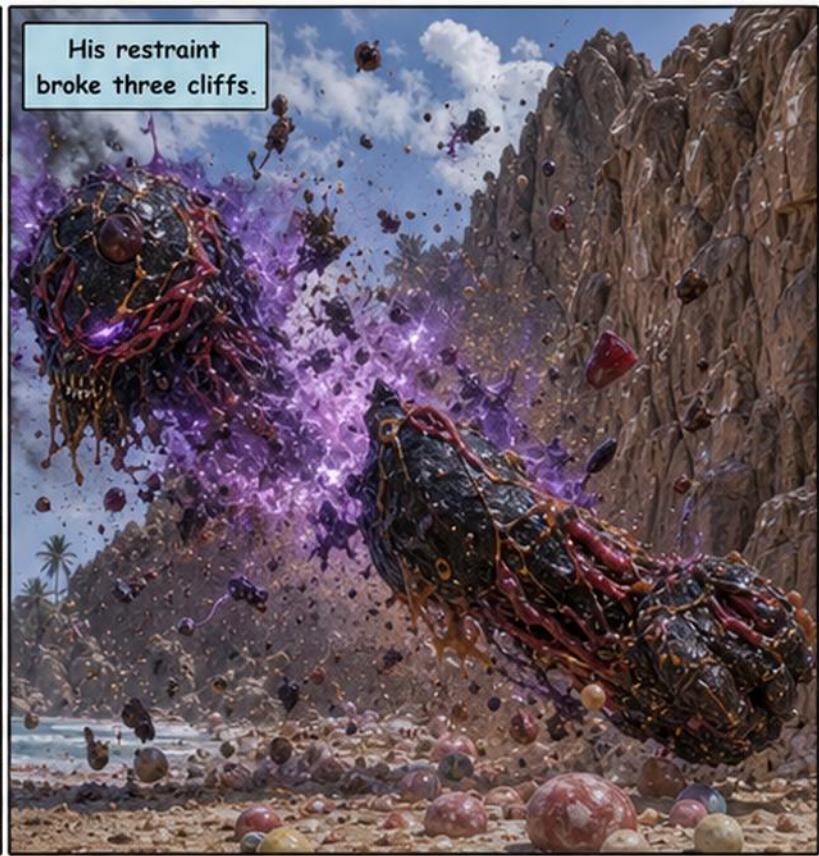

The first peaceful afternoon ended early.

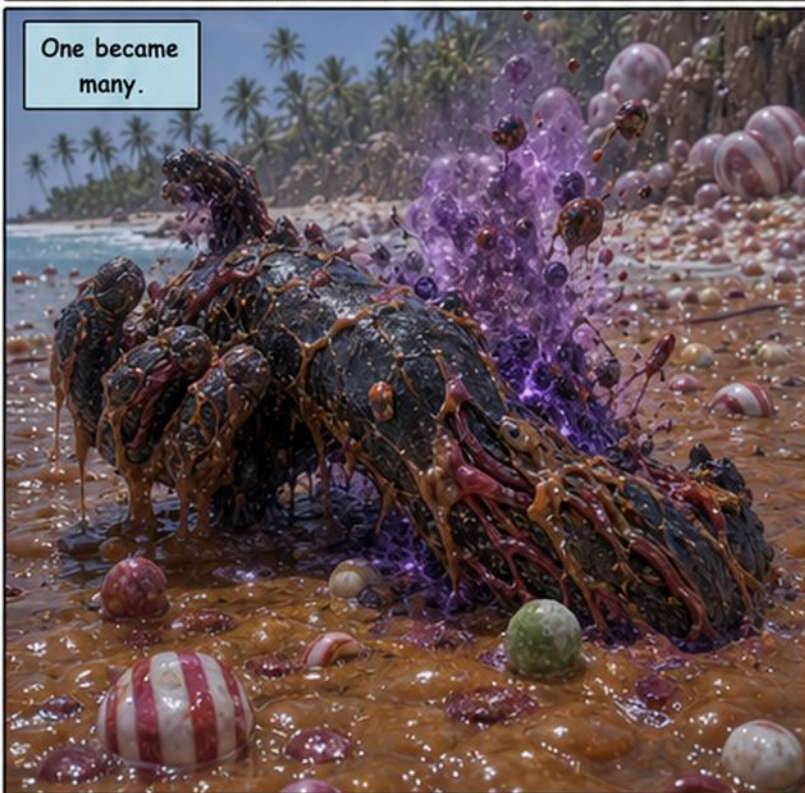

Veyro chose
restraint.

His restraint
broke three cliffs.

One became
many.

Ronin drew
Moonbite once.

Legend still
worked.

The monster worked
faster.

They were not a team.

They coordinated anyway.

Psychic force met Moonbite.

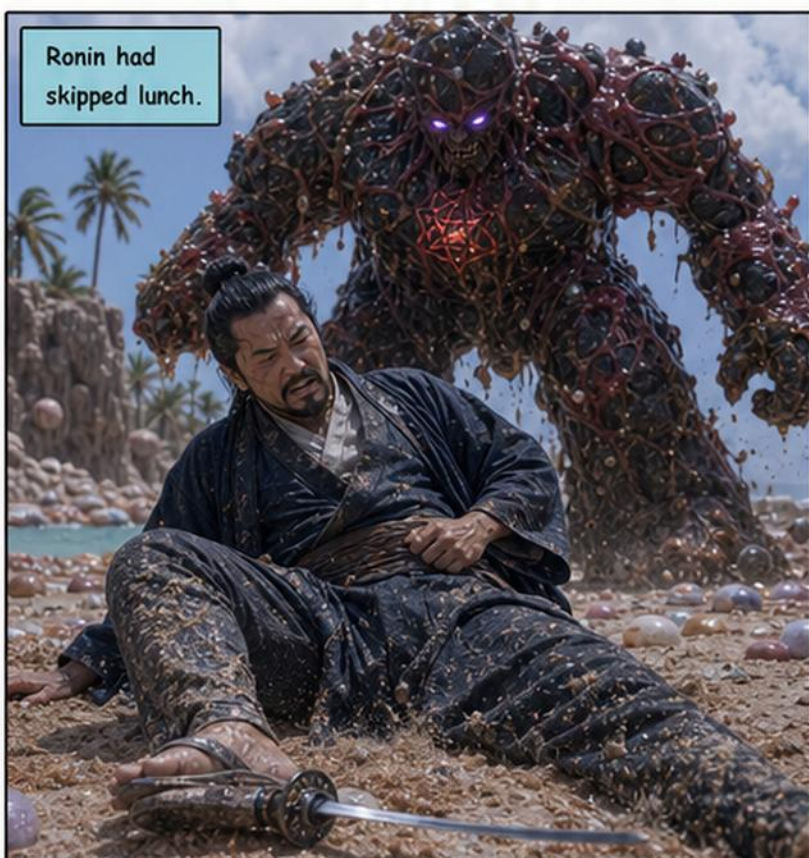

For one breath, legends agreed.

The golem disagreed.

Ronin had skipped lunch.

Desperation has strange manners.

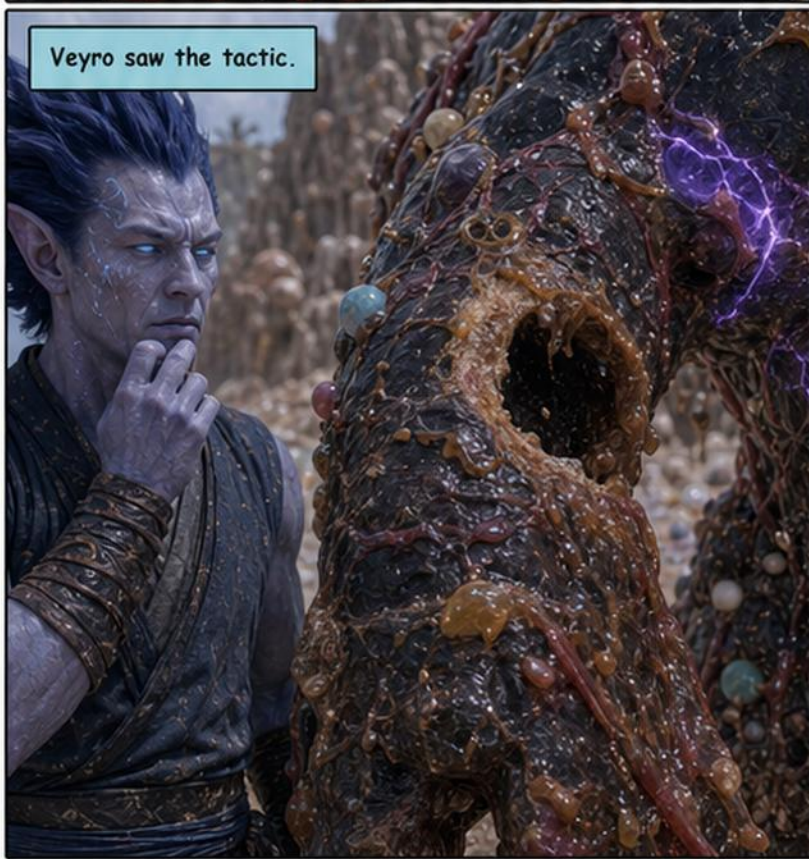

He bit the monster.

The wound stayed gone.

Veyro saw the tactic.

Then he improved it badly.

The ultimate monster had one weakness.

It was dessert.

The villains fled hungry for revenge.

Veyro and Ronin saved Candy Island before teatime. They denied this meant anything.
